**SERVICE THAT
EXCEEDS EXPECTATIONS.**

EQUIPMENT SHOULD NEVER BE A BARRIER TO SUCCESS.

– BOB SIEVWRIGHT / FOUNDER & OWNER

Founded in New Zealand in 1981, Trimax has grown from a modest workshop into a global business with facilities around the world. Today many of our mowers destined for United Kingdom and European turf are manufactured locally at our factory in Northampton, England. Our global headquarters is still located where we began in Tauranga, New Zealand.

We are renowned for designing and manufacturing mowing systems which produce a high-quality cut, finish, and spread – but what we value most is the reputation we have earned for providing unmatched local support and service.

OUR APPROACH TO INNOVATION IS DRIVEN BY YOU. WITH A FOCUS ON CREATING SOLUTIONS TO YOUR CHALLENGES, TOGETHER, WE'RE ABLE TO RAISE THE BAR ON RESULTS.

– MICHAEL SIEVWRIGHT
TRIMAX MOWING SYSTEMS CEO

STRIKER FOR HULL KINGSTON ROVERS.

THE CUSTOMER.

Hull Kingston Rovers are a professional rugby league club in the Super League.

They have won five league championships and one Challenge Cup.

Anthony Brockwell is the Head Groundsman for Hull Kingston Rovers at Craven Park.

THE NEED.

Hull Kingston Rovers needed:

- › The ability to consistently deliver a high-performance cut and finish on premium turf
- › Low cost of ownership to allow budget to be used in other pitch maintenance projects

THE VALUE.

Trimax delivers:

- › Reliable mowers with low maintenance requirements and industry-leading uptime
- › Low cost of ownership
- › Superior cut and finish on fine turf

THE RESULT.

Here's what Anthony says about Trimax:

"After booking a demonstration, Trimax came onsite and talked us through the Striker rotary mower. They left the machine with us, so we were able to get hold of the unit and really test it. Over the weekend of having it, it was a no brainer to use Trimax. It was a fantastic machine for what we needed it to do! We can now put that extra £1,200 that we would have spent on cylinder maintenance back into the pitch."

SNAKE FOR COTTINGHAM PARK GOLF & LEISURE CLUB.

THE CUSTOMER.

Cottingham Park Golf & Leisure Club is situated in Yorkshire, U.K.

Established in 1994, it started out as an 18-hole golf course, but soon expanded to include holiday lodges, restaurant facilities, a health club, a gym, an equestrian section and a driving range. The 2008 acquisition of the neighbouring Skidby Lakes golf course made Cottingham Park a 36-hole facility. John Wiles is the Course Manager and a Cottingham Park Company Director.

THE NEED.

Cottingham Park Golf and Leisure Club needed:

- › The ability to mow over difficult terrain without scalping
- › A versatile and reliable machine with minimal downtime
- › Excellent aftersales support and service

THE VALUE.

Trimax delivers:

- › Full-width rollers to produce an excellent striping effect and protect against scalping
- › Independently articulating cutting decks to easily mow over contours
- › An industry-leading 3-year warranty and local parts and service support

THE RESULT.

Here's what John says about Trimax:

"This is a very simple design, very well built. It just keeps out there cutting grass."

"In winter and autumn, when we stop using the cylinder mowers on the fairways we use the Snake to reduce the height of cut down to 20mm and we can still prepare and present the fairways, stripe and roll them over and top them down to a manageable level."

PROCUT FOR MOUNT KELLY.

THE CUSTOMER.
Mount Kelly in Tavistock, UK is a private, independent co-educational boarding school. It sits on 140 acres of tendered and manicured school grounds and sports fields. Matt Stevens is the Head of Grounds Staff at Mount Kelly, and Bobby Skelton is the Sports Director.

Mount Kelly needed:

- To maintain the appearance and health of grass on the pitches and fields to provide excellent quality playing surfaces
- Equipment with low maintenance requirements to save time and labour
- Machinery that is easy and intuitive to operate while still achieving premium results

Trimax delivers:

- Low cost of ownership
- Full-width rollers capable of producing striping while minimising ground disruption
- Simple cut height adjustment that can be done while in the field
- Design considerations for easy cleaning and maintenance access

Here's what Matt says about Trimax:
“The efficiency of the mower is excellent! Being wider than others I can cover more ground, saving time and fuel. Also the turn around time has been cut from previous attachments as the Procut is so easy to take on and off the tractor.”
“It has improved the look of our pitches by a great amount. This is what I am most impressed by as it is the most important factor. The quality of cut that the Procut gives is outstanding. I haven't ever seen a mower that you can cut slightly longer grass than normal even in the rain and it doesn't drop a single bit of grass clippings and gives an excellent finish to the surface.”

Here's what Bobby says about Trimax:
“The new mower has made a huge impact on keeping our large playing fields in excellent condition, a particular challenge at this time of year when lots of Cricket is being played and the grass is growing at its fastest. The new mower has allowed us to meet this challenge and our pitches look spectacular.”

FLAILDEK FOR MARK ELEY GROUND MAINTENANCE.

THE CUSTOMER.
Mark Eley has been the owner and operator of **Mark Eley Ground Maintenance** since 2002. Based in Neath, South Wales, he works across southern Wales and neighbouring areas of the UK.

Mark Eley Grounds Maintenance needed:

- Maximum reliability and minimal downtime in full-time commercial operations
- The versatility to cut fine turf in village commons and long grass in verges and parks
- Low cost of ownership and a quick return on investment

Trimax delivers:

- Easy service and maintenance
- Inexpensive spare parts that are readily and locally available
- Maximum versatility with Trimax's unique converter to deliver an excellent finish on both long and short grass
- Able to fit on a compact tractor to fit in tight spaces

Here's what Mark says about Trimax:
“They've never met their match. Whatever I put them into they handle. I'm always impressed with how good they are. These mowers never clog, even when cutting long grass in wet weather. They always leave a superb finish.”
“They are bombproof and will handle anything. They're well made, easy to operate and easy to service. There's nothing to match the Trimax machines. As I like to say ‘The colour is red. The future is Trimax!’”

FORCE FOR SHILLINGHAM VINEYARD.

THE CUSTOMER.
Shillingham Vineyard, located in East Cornwall, U.K., is currently in its early stages of development. Spanning 50 acres, the vineyard began planting five grape varieties in 2021. Operator, Alexander Ramsden, recently upgraded his Trimax Warlord to a Force.

Shillingham Vineyard needed:

- A reliable and versatile machine capable of mulching and mowing
- The capacity to mulch large prunings up to 80-90 cm in length to a fine mulch
- Able to manoeuvre in between the rows of vines

Trimax delivers:

- A robust, versatile multitool mower and mulcher
- The ability to mow and mulch prunings up to 90mm in diameter in a single pass
- A reliable mower with zero-maintenance features, including auto belt tensioning and maintenance-free roller bearings
- A compact mower, with various configurations, suitable for attachment to compact tractors

Here's what Alexander Ramsden says about Trimax:
“This Force is a nice, compact, solid build. We primarily use it for incorporating the prunings, some of which are up to 80-90cm in length, back into the soil. It's important that we get a really fine mulch and that's where the Trimax comes in! It completely eliminates any of the large prunings in the alleyways. We also use it to keep control of the grass in the summer months. If you are working around vineyards, orchards or tight spaces, I would say go for the Force, it's a really reliable piece of kit”

PEGASUS FOR STEWART BULLARD & SON.

THE CUSTOMER.
Stewart Bullard & Son is based in Hertfordshire U.K. Established in 1990, the company has been working with local authorities for over 35 years providing high quality grounds maintenance.

Stewart Bullard & Son needed:

- The ability to mow wide areas, like parks, sports fields and recreation grounds quickly and efficiently
- A mower that could be easily transported between sites on roads and in public spaces

Trimax delivers:

- Effective mowing at higher speeds and with wider cut widths to maximise productivity
- Quick, efficient and safe transportation between sites: the Multi-Lift System (MLS) allows all three decks to be easily lifted for road transport

Here's what Ellie Bullard from Bullard & Son says about Trimax:
“The S5 is so nimble and efficient. I use it on larger areas like school playing fields and it manoeuvres really well around obstacles like trees and goal posts”
“I love the Multi-Lift System, it's so easy to use and enables me to get into tighter spaces I couldn't before”

TRIMAX STRIKER

FAST BECOMING THE
MOWER OF CHOICE
AMONGST
GROUNDSMEN.

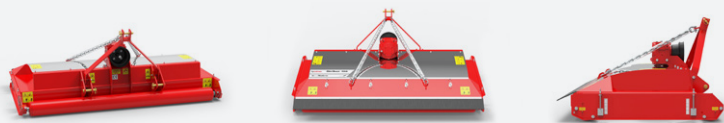

TRIMAX STRIKER

Trimax Striker is a multi-spindled rotary mower with extremely low maintenance requirements and is ideal for use on compact tractors.

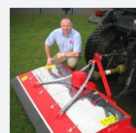

The Trimax Striker is designed to give a high cut quality and an excellent spread of clippings. Highly versatile, the Striker is capable of mowing grass 10 to 100mm. With an enclosed cutting chamber and a downward rear dispersion of clippings, the Striker has surpassed international safety standards making it one of the safest mowers on the market for use in public spaces.

Fitted with Trimax's exclusive LazerBladez™, the Striker can produce a cut and finish to rival that of a cylinder mower and is ideal for educational and sports facilities where presentation is key!

Specifications	150	190
▶ Cutting Width	1.46m (4' 9½")	1.94m (6' 4½")
▶ Overall Width	1.56m (5' 1½")	2.04m (6' 8½")
▶ Overall Length	1.16m (3' 9½")	1.16m (3' 9½")
▶ Height	0.83m (2' 8½")	0.83m (2' 8½")
▶ Cut Height Range	10–100mm (¾"–4")	10 - 100mm (¾"–4")
▶ No. of Blade Spindles	3	4
▶ Approx. Weight	322kg (710lbs)	400kg (882lbs)
▶ Min PTO Output*	25hp	30hp

*Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain.

We can now mow with confidence when the grass is wet, knowing it won't clog the machine up. As well as doing a great job, the machine is also a sound investment.

—CHRIS PARRY | Loughborough Endowed Grammer School, UK

WHAT'S NEW ON *STRIKER*

The Striker was originally designed as a compact solution for sports turf, especially for grounds maintenance for local football and cricket clubs. It features a simpler pan construction than the ProCut and includes maintenance-free ball bearing spindles.

PRODUCT FEATURES.

Low Cost of Ownership

With only 4 grease points on the mower and with robust sealed spindles, the Trimax Striker has incredibly low maintenance requirements.

Safety for Public Places

Striker exceeds international safety standards, and can be used with confidence in public spaces, school sports fields and confined areas.

LazerBladez™

Available in uplift and flat formation to suit mowing requirements, the unique tilt forward design minimises hang back in tough conditions.

Advanced Engineering

Trimax's meticulous design process combined with bespoke, innovative manufacturing technologies produce the most accurate rotary cutting in the market.

Striping Capable

Fitted with full width front and rear rollers, the Striker can produce striped patterned turf for those spaces where presentation is key.

Compact Tractor Suitable

Able to be paired with tractors as low as 25hp, the Striker is perfect for smaller budgets and compact tractors.

OPTIONAL FEATURES.

✓ 5 Year Extended Warranty

Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ Nexablades

Scientifically designed for high-end turf giving a superior cut and spread when it matters most.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Roller Scrapers

Cleans rollers and reduces clumping in wet conditions.

WHAT'S NEW ON **PROCUT S5**

Maintaining your mower has never been easier with all daily greasing requirements being removed with the implementation of the new Titan Roller Bearings. The new auto-belt tensioning system reduces belt maintenance and improves drive to the spindles for a cleaner, more consistent cut in heavy conditions.

PRODUCT FEATURES.

Titan Roller Bearing System

The Trimax Titan roller bearing system is maintenance-free, requiring no regular greasing, and provides excellent retention.

Automatic Belt Tensioning

Removes the need for belt adjustments and improves drive to the spindles and blades.

Accurate Spindle Setting Technology

Spindle height is perfectly aligned providing the most accurate cut possible.

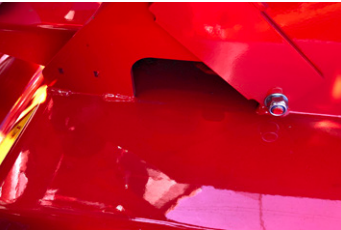

Low Maintenance

Zero daily maintenance. Spindles, roller bearings and auto-belt tensioning are maintenance-free.

SteadFAST Sealed Spindles

We've eliminated the tedious task of regular greasing. Covered by our 3-year warranty, maintenance costs are reduced, and productivity is enhanced.

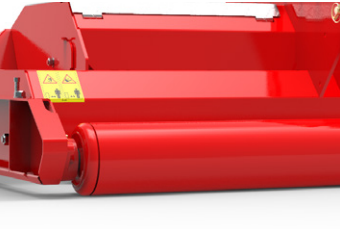

Belt Cavity Dual Wash Flaps

Provides easy access for removal of grass and drainage of water from belt chamber.

Precise Height Adjustment

Clearly displayed indicators in both metric and imperial units and a high-tensile 2mm pitch adjuster for precise cut height alterations.

Full Width Rollers

Full width rollers minimise scalping in undulating conditions and allow mowing over kerbsides and bunkers. Also aids in striping.

LazerBladez™

Available in uplift and flat formation to suit mowing requirements, the unique tilt forward design minimises hang back in tough conditions.

Stand On Covers

Enables safe and easy access to the rear of the tractor when coupling the mower. Quick release latches allow easy removal for cleaning and servicing.

OPTIONAL FEATURES.

✓ **5 Year Extended Warranty**
Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ **Anti-Bounce / Wear Skids**
Eliminates scalping and bouncing and reduces side channel wear.

✓ **Lighting Kit With Storage Bracket**
LED road lights, safety triangle, and bracket for storage box.

✓ **Storage Box**
Easy access to spare parts and tools.

✓ **Nexablades**
Scientifically designed for high-end turf giving a superior cut and spread when it matters most.

✓ **Quattro Blades**
Four blades (flat, upturned or mixed) per spindle for a finer cut.

✓ **Service Kit**
Full set of blades, bolts and belts for a quick routine service.

✓ **Toolbag**
Breaker bar, 24mm socket and extension bar for cut height adjustments.

✓ **Roller Scrapers**
Cleans rollers and reduces clumping in wet conditions.

TRIMAX PROCUT//S5 FM

TAKES A Paddock TO
HIGH LEVELS OF
PRESENTATION.

TRIMAX PROCUT//S5 FM

The front mounted version of the ever-popular rear linkage Trimax ProCut.

The Trimax ProCut FM is a robust machine engineered to withstand everyday use in the toughest commercial environments yet will deliver a clean cut – every time.

In operation, the front-mounted ProCut Series 5 rides on the ground on its front wheels and rear roller. The front castor wheels and rear roller follow ground contours allowing easy manoeuvrability and prevent scalping. With out-front mowing the need for the operator to look behind is reduced and the tractor wheels do not flatten the uncut grass.

TRIMAX PROCUT/S5 SR

ENGINEERED TO TACKLE
LONG GRASS APPLICATIONS
IN THE TOUGHEST
COMMERCIAL
ENVIRONMENTS.

TRIMAX PROCUT/S5 SR

The original ProCut found phenomenal success in long grass applications due to its rigid construction, cut quality and manoeuvrability. With the ProCut S5 SR we've taken this to another level.

The Single Roller ProCut S5 is a long grass mower that provides a market leading cut and finish. Engineered with a low body profile and increased under deck clearance it provides excellent clipping distribution without any daily maintenance requirements.

Built with industry leading strength and durability, this is the machine you need for any commercial long grass applications.

TRIMAX STEALTH/S3

MARKET LEADING CUT, FINISH AND VERSATILITY.

TRIMAX STEALTH/S3

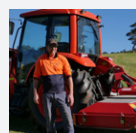

The Stealth Series 3 has been designed to give a higher quality of cut, operate in a wider range of conditions, be safer, more robust, easier to operate and take less time to maintain than any previous Stealth.

Backed by 30 years' of experience in market, the concept of Stealth Series 3 was born from the demand of our Australian customers for a mower that was more versatile in terms of long grass performance and more user friendly for both the operator and the workshop.

Backed by our industry leading 3-year warranty and our parts and technical support team, we know the Stealth Series 3 to be the best linkage wing mower for passive and active turf in the market.

Specifications	340
▶ Cutting Width	3.4m (11' 2")
▶ Overall Width	3.55m (11' 8")
▶ Transport Width	2.42m (7' 11")
▶ Overall Length	1.63m (5' 4")
▶ Height (wings up)	1.21m (3' 11½")
▶ Cut Height Range	10 – 90mm (¾" - 3½")
▶ No. of Blade Spindles	5
▶ Approx. Weight	940kg (2070lbs)
▶ Min PTO Output*	60hp

We're mowing 7 hours a day and getting large areas done quickly. It's easily manoeuvrable and the contouring following ability of the wings and the ability to fold them up with an in-cab transport lock is a huge advantage.

WHAT'S NEW ON **STEALTH/S3**

We've reduced the need for greasing through the introduction of new features such as SteadFast maintenance-free spindles and composite maintenance-free bushes. Stealth wing locks can now be operated from inside the tractor cab. Modifications have been made to the cutting chamber and the baffle design for improved cut quality and easy cleaning.

PRODUCT FEATURES.

LocTEK

A stubless roller bearing system for vastly improved roller retention, alignment, bearing life and minimal maintenance.

Greater mowing versatility

The improved cutting chamber and baffle design directs airflow from the blades out and over the rear roller for a better cut and spread.

LazerBladez™

Available in up-lift and flat formation to suit mowing requirements, the unique tilt forward design minimises hang back in tough conditions.

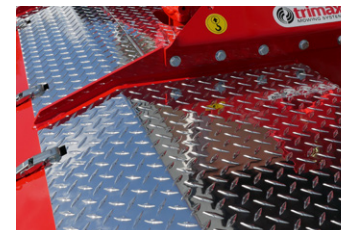

Low Maintenance

Reduced greasing requirements mean operators can spend more time mowing and less on maintenance.

Easy To Clean

The improved belt chamber design results in easy cleaning, with the front openings allowing any grass to be easily washed out or removed.

Stand On Covers

Enables safe and easy access to the rear of the tractor when coupling to the mower. Quick release latches allow easy removal for cleaning and servicing.

Anti-Wear Skids

Anti-wear skids reduce wear on side channels when operating in rough or uneven terrain.

Easy Height Adjustment

Clearly displayed stainless steel height indicators allow the easy adjustment of cut heights without having to raise or lower the wings and deck.

Service Stands

Designed with safety in mind, the Stealth Series 3 can come with lockable service stands which hold the mower up to assist with maintenance.

OPTIONAL FEATURES.

✓ 5 Year Extended Warranty

Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ Lighting Kit With Storage Bracket

LED road lights, safety triangle, and bracket for storage box.

✓ Storage Box

Easy access to spare parts and tools.

✓ Quattro Blades

Four blades (flat, upturned or mixed) per spindle for a finer cut.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Toolbag

Breaker bar, 24mm socket and extension bar for cut height adjustments.

✓ Roller Scrapers

Cleans rollers and reduces clumping in wet conditions.

TRIMAX STEALTH/S3 SR

PURPOSE BUILT
FOR ROADSIDE, OPEN SPACE
AND LONG GRASS
APPLICATIONS.

TRIMAX STEALTH/S3 SR

The Trimax Stealth SR combines the cut quality, safety, robustness, decreased maintenance time, and easy operation of Stealth Series 3 with enhanced performance in long grass.

With even more versatility than the Stealth Series 3 for long grass applications, the Stealth SR is purpose-built for an excellent cut for grass up to 500mm. The cutting chamber and baffle design are optimised to provide a better finish and spread at higher cut heights.

New and improved design features make the Stealth SR safer, more operator friendly, and easier to maintain than ever.

Specifications	340
▶ Cutting Width	3.4m (11' 2")
▶ Overall Width	3.55m (11' 8")
▶ Transport Width	2.42m (7' 11")
▶ Overall Length	1.63m (5' 4")
▶ Height (wings up)	1.21m (3' 11½")
▶ Cut Height Range	40 – 90m (1½" – 3½")
▶ No. of Blade Spindles	5
▶ Approx. Weight	900kg (1984lbs)
▶ Min PTO Output*	60hp

*Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain.

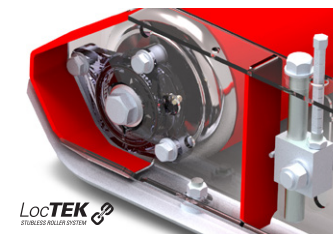

KEY APPLICATIONS.

- ✓ Passive Turf & Open Space
- ✓ Municipal & Contractors
- ✓ Racecourses
- ✓ Aviation
- ✓ Horticulture
- ✓ Lifestyle & Estates

WHAT'S NEW ON **STEALTH/S3 SR**

The Stealth SR incorporates all the new features of the Stealth S3. An anti-scalp roller on the front of the main mowing deck and bubble rollers on the wings are added to protect against scalping over contours.

PRODUCT FEATURES.

LocTEK

A stubless roller bearing system for vastly improved roller retention, alignment, bearing life and minimal maintenance.

Service Stands

Designed with safety in mind, the Stealth Series 3 can come with lockable service stands which hold the mower up to assist with maintenance.

In-Cab Unlock System

Unlock the mower wings' transport lock from the convenience of the tractor seat using the tractor's hydraulic control lever.

Long Grass Performance

Designed to mow grass up to 500mm high and achieve the quality cut you expect from Trimax.

Easy To Clean

The improved belt chamber design results in easy cleaning, with the front openings allowing any grass to be easily washed out or removed.

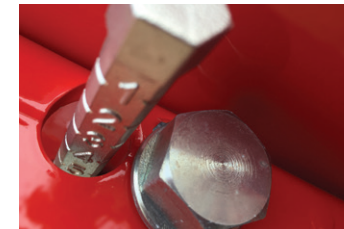

LazerBladez™

Available in up-lift and flat formation to suit mowing requirements, the unique tilt forward design minimises hang back in tough conditions.

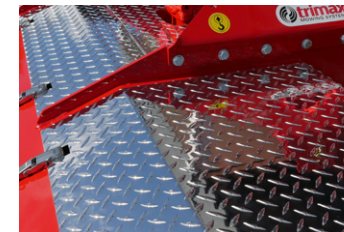

Low Maintenance

Reduced greasing requirements mean operators can spend more time mowing and less on maintenance.

Easy Height Adjustment

Clearly displayed stainless steel height indicators allow the easy adjustment of cut heights without having to raise or lower the wings and deck.

Stand On Covers

Enables safe and easy access to the rear of the tractor when coupling to the mower. Quick release latches allow easy removal for cleaning and servicing.

Anti-Scalp Roller

A raised front roller provides anti-scalp protection for your turf without impacting long grass performance.

OPTIONAL FEATURES.

✓ 5 Year Extended Warranty

Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ Lighting Kit With Storage Bracket

LED road lights, safety triangle, and bracket for storage box.

✓ Storage Box

Easy access to spare parts and tools.

✓ Quattro Blade System

Four blades (flat, upturned or mixed) per spindle for a finer cut.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Toolbag

Breaker bar, 24mm socket and extension bar for cut height adjustments.

✓ Roller Scrapers

Cleans rollers and reduces clumping in wet conditions.

TRIMAX SNAKE//S3

THE TURF SPECIALIST'S SECRET WEAPON.

TRIMAX SNAKE//S3

The Trimax Snake sets the standard for trailed rotary mowing, trusted by many prestigious golf courses and turf farms worldwide.

Studied by the Sports Turf Institute of New Zealand, the Trimax cutting system delivers cut quality comparable to cylinder mowers, while offering the versatility and reliability of Trimax's renowned rotary design.

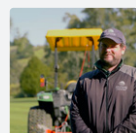

Now, with zero daily maintenance, the Snake S3 makes operations even more efficient for turf professionals. The Snake S3 features the Titan roller bearing system and maintenance-free wheel hubs, which together eliminate the need for daily greasing. These innovations further reduce the cost of ownership allowing owners and operators to focus on what matters most — mowing.

Backed by Trimax's industry-leading 3-year warranty, the Snake S3 redefines productivity and operational efficiency.

Specifications	320	400
▶ Cutting Width	3.20m (10' 7")	4.00m (13' 1")
▶ Overall Width	3.36m (11' 1")	4.12m (13' 6")
▶ Overall Length	3.60m (11' 10")	3.60m (11' 10")
▶ Transport Width	2.14m (7' ¼")	2.14m (7' ¼")
▶ Transport Height	1.86m (6' 1")	2.24m (7' 4")
▶ Cut Height Range	10 – 100mm (¾" – 4")	10 – 100mm (¾" – 4")
▶ No. of Blade Spindles	9	11
▶ Approx. Weight	1350kg (2976lbs)	1480kg (3258lbs)
▶ Min PTO Output*	35hp	45hp

*Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain.

“It's one of my favourite mowers. Maintenance is an absolute breeze and the service from Trimax has been brilliant. I would recommend this mower to any country club or golf course.

— SIMON ASKEY | Head Green Keeper, Whangamata Golf Club

KEY APPLICATIONS.

- ✓ Golf Courses (Roughs & Fairways)
- ✓ Municipal & Contractors
- ✓ Turf
- ✓ School & Sports Fields
- ✓ Lifestyle & Estates

WHAT'S NEW ON **SNAKE//S3**

The Snake S3 builds on the Snake legacy with Trimax Titan roller bearings and maintenance-free wheel hubs for zero daily maintenance. New features also include height adjustment collars, stand-on covers, and removable blade beams for easy operation—letting turf professionals focus on exceptional results.

PRODUCT FEATURES.

Titan Roller Bearing System

The Trimax Titan roller bearing system is maintenance-free, requiring no regular greasing, and provides excellent retention.

Zero Daily Maintenance

Implementation of the Trimax Titan roller bearing system and maintenance-free wheel hubs results in no daily maintenance.

Automatic Belt Tensioners

Automatic belt tensioners eliminate the need for belt adjustments and provides consistent drive to the spindles and blades.

Articulation Ability

With three articulating decks the Snake has the ability to provide a consistent cut when contours are present.

Full Width Rollers

Full width rollers minimise scalping in undulating conditions, allowing for mowing over kerbsides and bunkers, while leaving a premium striped finish.

QuikLIFT

QuikLIFT enables decks to be raised slightly for traversing paths without the need to disengage the PTO.

Zero Turn

Allows continuous cutting while turning sharply for maximum productivity.

Ease of Use

The Snake's compact design allows easy towing, new collars simplify height adjustment, and removable blade beams ensure easy blade changes.

LazerBladez™

LazerBladez offer a superior finish with a cost-efficient design, as only the fling-tip needs replacing. Available in uplift and flat formations, their tilt-forward design minimizes hang-back in tough conditions.

OPTIONAL FEATURES.

✓ 5 Year Extended Warranty

Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ Anti-Bounce / Wear Skids

Eliminates scalping and bouncing and reduces side channel wear.

✓ Roller Scrapers

Cleans rollers and reduces clumping in wet conditions.

✓ Electric Unlock

Unlocks decks electronically from the tractor seat.

✓ Multi Lift System

Five different lift functions to adjust mowing widths when required.

✓ Mudguards, Lights, & Chains

Add LED tail light clusters, safety chains, and transport wheel mudguards for increased safety during road transportation.

✓ Leaf Mulch Kit

Save on purchasing dedicated leaf blowing and collection units with the Snake Mulch Kit.

✓ Nexablades

Scientifically designed for high-end turf giving a superior cut and spread when it matters most.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Toolbag

Breaker bar, 24mm socket and extension bar for cut height adjustments.

✓ Trimax Connect

A free app available when Trimax Multi-Lift System (MLS) is fitted. Provides mower runtime analysis and controls MLS functionality.

TRIMAX PEGASUS//S5

STRONGER. SMARTER. SAFER.
SECOND TO NONE.

TRIMAX PEGASUS//S5

The Trimax Pegasus sets the benchmark in wide area mowing for parks, reserves, airports, racecourses, sports fields, turf farms, and more.

For over 20 years, the Trimax Pegasus has been leading the way in wide-area mowing. Introduced in 2001 as the world's first multi-deck roller mower, the Pegasus is renowned for its robustness and versatility. Its fast spindle speeds and deep mowing decks deliver the highest quality cut and finish every time, and articulating decks provide a consistent cut over light to moderate contours.

The Pegasus S5 builds on the incredible strength, durability, versatility, and efficiency of the previous series to increase machine life and decrease downtime in full-time commercial applications.

Specifications	493	610	722
▶ Cutting Width	4.94m (16' 2")	6.09m (19' 11")	7.23m (23' 9")
▶ Overall Width	5.1m (16' 9")	6.25m (20' 6")	7.39m (24' 3")
▶ Overall Length	4.65m (15' 3")	4.65m (15' 3")	4.65m (15' 3")
▶ Transport Width	2.53m (8' 3¾")	2.53m (8' 3¾")	2.53m (8' 3¾")
▶ Transport Height	2.62m (8' 7")	3.2m (10' 6")	3.8m (12' 6")
▶ Cut Height Range	10 – 110mm (¾" – 4½")	10 – 110mm (¾" – 4½")	10 – 110mm (¾" – 4½")
▶ No. of Blade Spindles	9	11	13
▶ Approx. Weight	2200kg (4895lbs)	2440kg (5380lbs)	2660kg (5865lbs)
▶ Min PTO Output*	50hp	55hp	60hp

*Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain.

KEY APPLICATIONS.

✓ Municipal & Contractors ✓ Turf ✓ Racecourses ✓ Polo ✓ School & Sport Fields

WHAT'S NEW ON **PEGASUS S5**

The Pegasus chassis and outrigger arms have been completely redesigned to increase strength without adding unnecessary weight. Larger wheels decrease ground pressure and support a wider range of tyre options. Maintenance-free features have been introduced.

PRODUCT FEATURES.

Robust Chassis

10% stronger under tough travel conditions, twice the durability in deck lifting and lowering, and a 60% increase in rigidity in the outrigger arms from Pegasus S4.

Road Kit

Adds lights, signage, and beacons to the mower.

Suspension

The new Pegasus S5 Flexiride Torque Suspension System is designed for increased strength and smoother travel at highway speeds.

Low Maintenance

Zero daily greasing for an 80% reduction in annual grease consumption. Spindles, roller bearings, and auto-belt tensioning are maintenance-free.

Safety Compliant

Complies with international safety standards and can be used with confidence on the roads and in public spaces.

Height Adjustment

Clearly displayed indicators in both metric and imperial units and a high-tensile 2mm pitch adjuster for precise cut height alterations.

Titan Roller Bearing System

The Trimax Titan roller bearing system is maintenance-free, requiring no regular greasing, and provides excellent retention.

Stand On Belt Covers

Provides safe and easy access to the chassis.

QuikLift

Enables mower decks to be raised without disengaging the PTO to traverse driveways, footpaths and pavements. Now a standard inclusion for all Pegasus models.

OPTIONAL FEATURES.

✓ 5 Year Extended Warranty

Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

✓ Anti-Bounce / Wear Skids

Eliminates scalping and bouncing and reduces side channel wear.

✓ Electric Brake Kit & Breakaway

Reduces braking force required by the tractor.

✓ Electric Unlock

Unlocks decks electronically from the tractor seat.

✓ Multi-Lift System

Five different lift functions for mower decks. Now with Drive Protect.

✓ Nexablades

Scientifically designed for high-end turf giving a superior cut and spread when it matters most.

✓ Quattro Blade System

Four blades (flat, upturned or mixed) per spindle for a finer cut.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Spare Road wheel & Mount

Mounts a spare wheel to the rear mowing deck.

✓ Toolbox & Mount

Mounts a toolbox to the mower chassis.

✓ Toolbag

Breaker bar, 24mm socket and extension bar for cut height adjustments.

✓ Turf Tyres

Distributes mower weight for less ground disturbance.

✓ Roller Scrapers

Cleans rollers and reduces clumping in wet conditions.

TRIMAX PEGASUS//S5SR

WIDE AREA, OPTIMAL
LONG GRASS
PERFORMANCE.

TRIMAX PEGASUS//S5SR

Since its introduction in 2001, the Trimax Pegasus series has established itself as the benchmark in wide-area mowing where cut quality and presentation are key. The Pegasus SR builds on the Pegasus's legendary versatility and cut quality by taking its long grass performance to another level.

The Pegasus SR variant allows larger volumes of grass to enter the deck by replacing the front roller with castor wheels, allowing the mower to tackle long grass more effectively.

Containing all the industry leading features included with the Pegasus S5, the Pegasus SR has a range of features that increase machine life, reduce maintenance, and decrease downtime in full-time commercial applications.

Built with industry leading strength and durability, the Pegasus SR is the machine you need for any commercial wide area long grass applications.

Specifications	493	610	722

KEY APPLICATIONS.

✓ Passive Turf & Open Space ✓ Municipal & Contractors ✓ Aviation ✓ Racecourses

PRODUCT FEATURES.

Long Grass Performance

Designed to mow grass up to 500mm high (depending on conditions) with a cut height range of 20 – 180mm.

Low Maintenance

Zero daily greasing for an 80% reduction in annual grease consumption. Spindles, roller bearings, and auto-belt tensioning are maintenance-free.

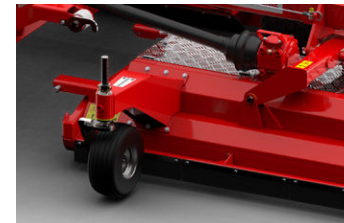

Impact Protection

Outtrigger arms and side channel leading edges have been redesigned for increased impact protection.

Road Kit

Adds lights, signage, and beacons to the mower.

Single Roller

Replacing the front roller with castor wheels allows more grass into the cutting chamber, resulting in a clean cut in long grass.

QuikLIFT

Enables mower decks to be raised without disengaging the PTO to traverse driveways, footpaths and pavements. Now a standard inclusion for all Pegasus models.

Safety Compliant

Complies with international safety standards and can be used with confidence on the roads and in public spaces.

Automatic Belt Tensioning

TRIMAX FLAILDEK FX

TRIMAX FLAIL TECHNOLOGY FOR OUT FRONT OPERATION.

TRIMAX FLAILDEK FX

The Trimax FlailDek FX offers a high-performance alternative to standard factory-fitted rotary mowing attachments.

FlailDek FX has the ability to deliver an exceptionally clean cut and disperse clippings safely and is used by contractors, councils, schools and land owners around the world. A highly versatile mower, FlailDek FX is also able to mulch branches up to 25mm in diameter, mow high grass and using the optional converter flap is suitable for sports fields and other fine turf applications.

The FlailDek FX has been designed to have minimal maintenance requirements and a low total cost of ownership yet deliver maximum reliability.

			
Specifications	135	155	185
▶ Cutting Width	1.36m (4' 6")	1.52m (5')	1.83m (6')
▶ Overall Width	1.56m (5' 1½")	1.72m (5' 8")	2.05m (6' 8½")
▶ Overall Length	1.1m (3' 7")	1.1m (3' 7")	1.1m (3' 7")
▶ Overall Height	0.37m (1' 2½")	0.37m (1' 2½")	0.37m (1' 2½")
▶ Cut Height Range	20 – 100mm (¾" – 4")	20 – 100mm (¾" – 4")	20 – 100mm (¾" – 4")
▶ Approx. Weight	210kg (460lbs)	225kg (495lbs)	250kg (550lbs)
▶ Total Belts	2	2	2
▶ No. of Flails	28	32	40
▶ Min PTO Output*	N/A	N/A	N/A

*Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain

The FlailDek processes grass so much better than a Slasher, it mulches and doesn't leave any windrows and it goes into places a slasher can't. It's tough enough to mulch heavy vegetation such as blackberries and saplings.

- BRANDON PURTELL | Wodonga Golf Club, Wodonga QLD

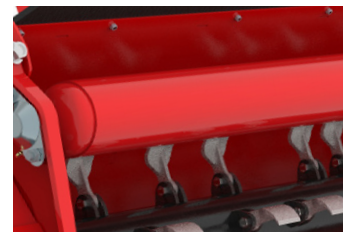

KEY APPLICATIONS.

- ✓ Municipal & Contractors
- ✓ School & Sports Fields
- ✓ Golf & Country Clubs (Roughs)
- ✓ Lifestyle & Estates
- ✓ Racecourses
- ✓ Horticulture

WHAT'S NEW ON **FLAILDEK FX**

Strength and durability are increased from the original FlailDek design with the incorporation of a high tensile steel body, a 70% stronger rotor, a stronger gearbox, and forged steel Trimax Gamma Flails. The unique converter is also available as an optional feature.

PRODUCT FEATURES.

Rear Roller

Full width rear roller prevents scalping, permits the edge of the mower to be run along kerbs, adds to overall safety and produces striping.

Safe Clipping Dispersion

Safety is paramount when mowing in public areas. This is why Trimax has designed the FlailDek FX to expel debris in a downward direction behind the mower.

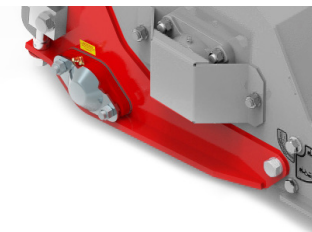

Power Saving Flails

Strong forged steel flail with an aerodynamic profile reduces hp requirements yet generates sufficient draught to lift grass for a clean cut.

Front Castor wheels

Front castor wheels allow the FlailDek FX to follow ground contours independently from the tractor. The semi-pneumatic tyres are impossible to puncture.

Wear Resistant Skids

Wear resistant trailing skids made from abrasion-resistant steel extends bearing life and enables high productivity in the most challenging environments.

New Improved Rotor

Dynamically balanced and designed for durability to withstand everyday use in the toughest mowing environments.

OPTIONAL FEATURES.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

✓ Unique Converter

Change the position of the converter flap to suit your application. Go from mowing to mulching in seconds.

TRIMAX EZEEMOW/FX

TRIMAX FLAIL TECHNOLOGY FOR COMPACT TRACTORS.

TRIMAX EZEEMOW/FX

The Ezeemow FX is the ideal partner for your compact tractor where versatility and robustness is needed.

With its compact dimension, Ezeemow FX can fit closely to the tractor and manoeuvre into tight corners. Able to mow anything from fine turf to small prunings, vegetation up to 25mm in diameter and high grass, the Ezeemow FX can transform areas into tidy mown lawn in a single pass. This versatility makes the Ezeemow FX ideal for contractors, councils, roadsides, estates, and orchard applications.

The Ezeemow FX has been designed to have minimal maintenance requirements and low total cost of ownership yet deliver maximum reliability.

TRIMAX WARLORD//S3

YOUR ALL-PURPOSE
WORKING
COMPANION.

TRIMAX WARLORD//S3

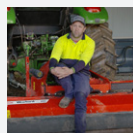

Extremely versatile, the Trimax Warlord S3 is bound to dominate any environment you put it in – handling long and short grass, prunings up to 75mm in diameter, turf ribbons and offcuts with ease.

Tame rough patches full of scrub and branches in one pass and leave behind a field of evenly distributed mulch and clippings. Control the coarseness of discharge with Warlord's adjustable rear flap while safely dispersing clippings. The Trimax Warlord is tough and durable, requiring minimal maintenance and simplifying repairs to keep your machine running for years. Spend less time and money keeping your mower operating at 100%.

The Trimax Warlord S3 is a medium duty mower/mulcher suitable for a wide range of applications including sod and turf farming, horticulture, passive turf management, contracting/hire, and land reclamation.

WHAT'S NEW ON **WARLORD S3**

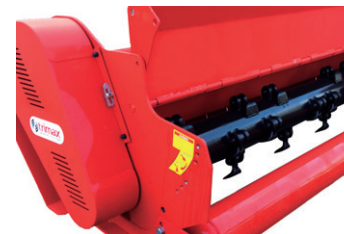

The hydraulic side shift and discharge control capabilities are new from the previous Warlord series, further increasing the versatility of the machine.

PRODUCT FEATURES.

Hydraulic Side Shift

The Warlord can be quickly offset to the left or right by up to 500mm. Perfect for transport and manoeuvring around obstacles whilst mowing.

Discharge Control

Fine mulch is produced with the flap in the lowest position. Controlling discharge assists with safety in public spaces. Lift flap open for easy flail servicing.

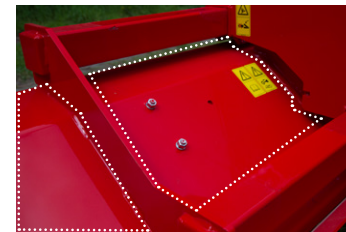

Pruning Guide

Helps direct prunings in and under the mower. Also helps keep debris away from the hydraulic system.

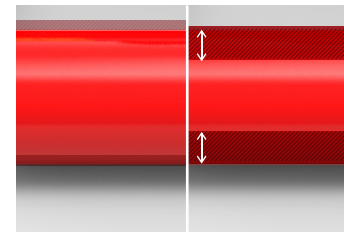

Left Hand Offset

Warlord comes standard with left hand offset for increased visibility.

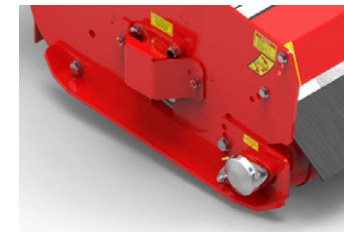

Replaceable Internal Liner

A bolt-in 6mm replaceable internal liner increases the life of the body, minimises damage and reduces noise.

Heavy Duty Roller

A robust roller with 8.5mm-thick walls to handle tough applications.

Replaceable Skids

Skids on Warlord trailing arms prolong mower life in demanding terrain and can be replaced when required.

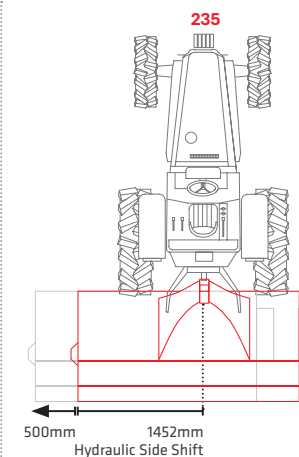

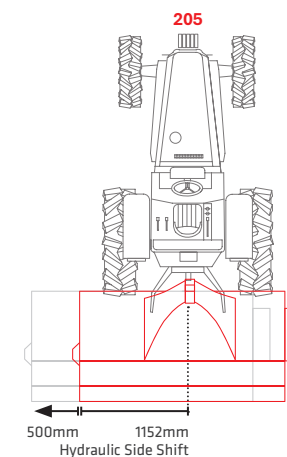

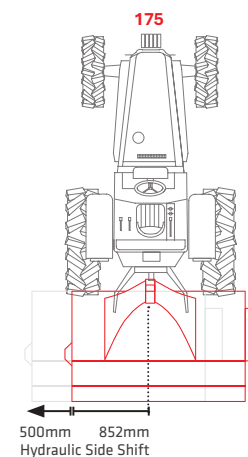

OPTIONAL FEATURES.

✓ Service Kit

Full set of blades, bolts and belts for a quick routine service.

KEY APPLICATIONS.

✓ Municipal & Contractors ✓ Horticulture ✓ Aviation ✓ Lifestyle & Estates

WHAT'S DIFFERENT FROM THE WARLORD.

Strength and durability have been increased, including 50% thicker endplates and a newly designed rotor bearing assembly with over 35% higher load capacity than Trimax's previous flail mowers. Zero-maintenance features and a wider array of options have also been introduced.

PRODUCT FEATURES.

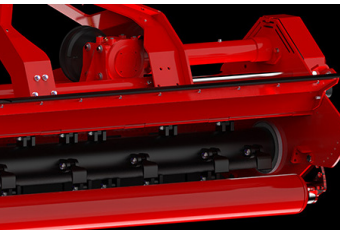

Mow and Mulch with One Machine
Mow grass to a fine finish and mulch prunings up to 90mm in diameter with one machine.

Replaceable Internal Liner
A 6mm replaceable internal liner reduces noise and increases durability in the mower's high-impact zones.

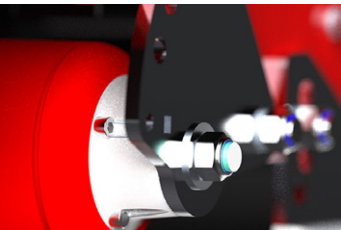

Low Maintenance
Easily accessible grease locations and maintenance-free features make regular service quicker and easier than ever.

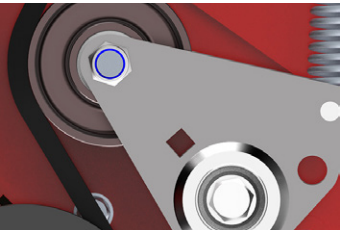

Discharge Control
The coarseness of mulch can be controlled by adjusting the height of the rear flap.

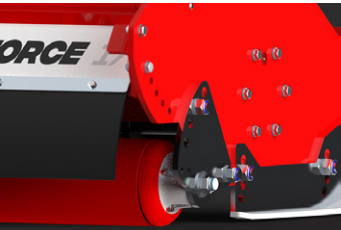

Offset Capabilities
The Force can come with a left- or right-hand offset with an additional 500mm of hydraulic side shift. Available on the 175, 205, and 235 models.

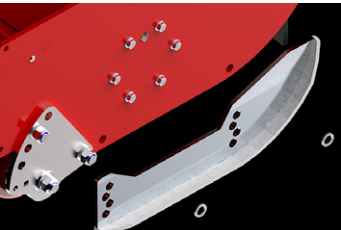

Maintenance-Free Roller Bearings
New highly-rated sealed roller bearing stacks require no regular greasing.

Auto Belt Tensioning
The belt system is equipped with automatic tensioners to optimise drive to the rotor without requiring manual adjustments.

Smooth External Profile
New internal rotor bearings create a smooth external profile and provide a closer cut around obstacles.

Heavy-Duty Skids
Heavy-duty wear skids on the mower trailing arms prolong mower life in demanding terrain and are easily removed or replaced.

OPTIONAL FEATURES.

- ✓ **Front Mount**
Available in front mount three-point linkage configuration for increased visibility.
- ✓ **Heavy Duty Liner**
Increases durability in the mower's high impact zone.
- ✓ **Heavy Duty Roller**
Increases roller wall thickness from 5mm to 11mm.
- ✓ **Lighting Kit with Storage Bracket**
LED road lights, safety triangle, and bracket for storage box.
- ✓ **Mulching Counterblades**
Produces an ultra-fine mulch.
- ✓ **Pruning Rakes**
Collects prunings into the cutting chamber.
- ✓ **Storage Box**
Easy access to spare parts and tools.
- ✓ **Safety Dispersion Guard**
Recommended for all mowers operating in public spaces, the safety dispersion guard ensures that debris exits the cutting chamber safely.
- ✓ **Service Kit**
Full set of blades, bolts and belts for a quick routine service.

OPTIONAL PRODUCT FEATURES.

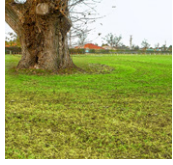

ROTARY MOWERS.

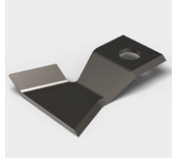

✓ **5 YEAR EXTENDED WARRANTY**
Increase the standard three-year warranty up to a five-year extended warranty for total peace of mind. T&C's apply.

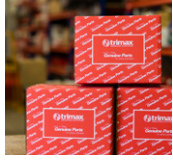

✓ **ELECTRIC UNLOCK**
Replaces the standard in-cab transport lock release rope with an electric actuator. This is operated by a push button remote.

✓ **LEAF MULCH KIT**
Baffle system for mulching branches & leaves while mowing.

✓ **NEXABLADES**
Scientifically designed for high-end turf giving a superior cut & spread.

✓ **SERVICE KIT**
Keeping parts on hand for quick routine service.

✓ **TOOLBOX & MOUNT**
Mounts a toolbox to the mower chassis.

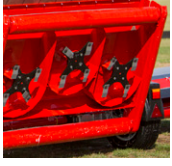

✓ **ANTI-BOUNCE/ ANTI-WEAR SKIDS**
Increasing mowing speed while maintaining excellent presentation; protecting side channels in high-wear applications.

✓ **FRONT MOUNT**
Increased visibility during operation. Suitable for tractors with front PTO drive only.

✓ **MUDGUARDS, WITH LIGHTS & CHAINS**
Roadside operations or road travel between operation sites.

✓ **QUATTRO BLADES**
Achieving excellent presentation and grass health with more cuts per metre.

✓ **STORAGE BOX**
Keeping tools & parts on hand for quick adjustments.

✓ **TURF MUD GUARDS**
Available for both road tyres & turf tyres.

✓ **ELECTRIC BRAKES**
Roadside operations or road travel between operation sites.

✓ **LIGHTING KIT & STORAGE BRACKET**
Mounting kit with storage bracket, reflector triangle & lights.

✓ **MULTI-LIFT SYSTEM WITH DRIVE PROTECT**
Complete mowing deck control for areas with varied clearance widths.

✓ **SPARE WHEEL & MOUNT**
Mounts a spare wheel to the rear mowing deck.

✓ **TOOLBAG**
Easy height adjustment in the field.

✓ **TURF TYRES**
Decreasing mower impact on turf through tread pattern & width; ideal when mower stays at a single site.

Trimax Mowing Systems UK Facility – Northampton, UK

Trimax Global Headquarters – Tauranga, New Zealand

DESIGNED IN NEW ZEALAND. MANUFACTURED IN THE UK.

OVER 75% OF TRIMAX MOWERS FOR EUROPEAN AND UK CUSTOMERS ARE BUILT IN THE UK.

As the leading supplier of mowers to local authorities and contractors, many customers now have a fleet of multiple Trimax mowers, confident in a brand that they know will not let them down.

Our Northampton facility, established in 2015, is equipped to build over 75% of the market-leading Trimax range in the UK.

We are proud to build on our local sourcing and manufacturing efforts to strengthen our ability to supply quickly and meet customer expectations.

FLAIL MOWERS.

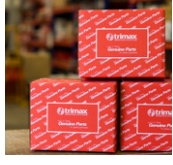

✓ **FRONT MOUNT**
Increased visibility during operation. Suitable for tractors with front PTO drive only.

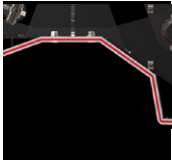

✓ **HYDRAULIC SIDE SHIFT**
Position directly behind the tractor or quickly offset for easy transport & increased maneuverability.

✓ **OFFSET**
Machine is offset to increase over-the-shoulder visibility

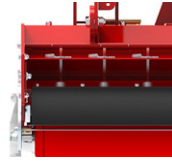

✓ **SERVICE KIT**
Keeping parts on hand for quick routine service.

✓ **HEAVY DUTY LINER**
Increase the life of your replaceable internal liner by three times with a heavy-duty internal liner, suitable for high-wear applications.

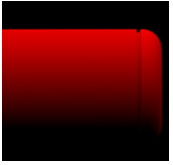

✓ **LIGHTING KIT & STORAGE BRACKET**
Mounting kit with storage bracket, reflector triangle & lights.

✓ **PRUNING RAKES**
Collects prunings into the cutting chamber for more efficient mulching.

✓ **STORAGE BOX**
Keeping tools & parts on hand for quick adjustments.

✓ **HEAVY DUTY ROLLER**
Upgrade from the 5mm thick roller to a roller with 11mm wall thickness. Suitable for more demanding applications.

✓ **MULCHING COUNTERBLADES**
An internal liner with built-in blades for extra material processing. Can produce ultra-fine mulch.

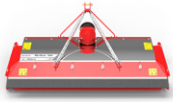

✓ **SAFETY DISPERSION GUARD**
The Safety Dispersion Guard ensures that debris exits the cutting chamber safely.

✓ **UNIQUE CONVERTER**
Change the position of the converter flap to suit your application. Go from mowing to mulching in seconds.
